Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The claimed method and apparatus for encasing sausages are believed to be in condition for allowance, and the application is being passed onto issue. The prior art of record does not anticipate nor render obvious with the proper teaching(s) the claimed invention. The claimed invention is directed to a vertically disposed stuffing tube having a lower discharge end, means for moving the tube upwardly and downwardly, the lower end of the stuffing tube extending into a twister mechanism, a linker disposed below the twister mechanism. A conically shaped restricting device is rotatably surrounding a lower portion of the tube with a lower diameter of the restricting device being slightly greater than the outside diameter of the tube. A shirred casing is around the tube and terminating in the lower end of the restricting device so that gravity feeds the casings from the restricting device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
